

St. Dominic SCHOOL

Our Foundation. Their Future.

Classroom Locations

When we began our planning for this school year in July and August, we had Kindergarten in the cafeteria and 1st Grade in the gym due to their class numbers. Now that our enrollment has stabilized, we are able to move our Kindergarten students back to their original classroom. This means that our 1st Grade will be able to move into the cafeteria, which is a space more similar to a traditional classroom. All of this moving will happen during Distance Learning to be ready for when we return to our building. A benefit of all of this moving is that our PE program will now have the gym back to use for indoor physical education classes in Preschool-8th Grade.

CSCOE Big Bang STEM Fair and Shine On Talent Show

Due to the pandemic, these two wonderful opportunities for our students will be held, but in a slightly different format. We encourage our SDS students to participate in these engaging opportunities to showcase their talents! See this flyer for more information.

No School Monday, November 16

As a reminder, there will be no school on Monday for all SDS students. Our teachers and staff will be working diligently to prepare for the upcoming Distance Learning, Essential Care, and in-person Preschool/PreK.

Picture Retakes TOMORROW!

Friday, November 13 is our picture retake day with Lifetouch.

NED's Mindset Mission

Our school is hosting NED's Mindset Mission next Friday, 11/20. This is a live streaming, all school event. A world-class performer takes our students on an interactive educational journey filled with storytelling, illusions and yo-yo tricks. This is a pay it forward event. Please see the flyer sent home with your student to find out more!

Groves K Virtual Preview Day

CSCOE is hosting a virtual Kindergarten preview event at 8 p.m. November 17 to showcase the Believe and Read program. *What is Believe and Read?* St. Dominic School has partnered with CSCOE and Groves Academy in the area of Literacy for Preschool-3rd grade. Learn about the benefits of this program, and why it is so unique to our community! [Click here to learn more and to register for the event.](#)

PARENTING SESSION

Parenting Changes in Elementary and Middle School
Dr. Jules Nolan

November 10, 6 p.m. | November 17, 6 p.m.

Register at:

<https://calendly.com/drjulesnolan/preparing-for-change-elementary-to-middle-school>

Often, parents don't realize adolescence can begin with physical changes to the brain as early as 4th or 5th grade and that these changes can affect behavior beginning around age 9 or 10. During this discussion, we'll talk about what you can expect to see as your child moves through these years. You will learn how brain development affects thoughts, perceptions, feelings, behavior, school performance, and family relationships. Parents will leave with concrete strategies for effective parenting during this critical stage of development and how our parenting must pivot to meet new challenges.
